Part 1 - Project Description (Attach Vicinity Map)

The City of Federal Way is planning to install a compact roundabout at the intersection of SW Dash Point and 47th Ave SE. The project will stay within the existing right of way, with retaining walls at the southeast and southwest corner of the intersection. The proposed roundabout has an inscribed circle diameter of 85'. The diameter of the center island is 60' including the truck apron (and 47' without). There are no known geometric constraints for a potential roundabout, as the site is relatively flat, and the roundabout is relatively compact within the existing right-of-way.

Part 2 - Categorical Exclusion & STIP

- Identify one CE from 23 CFR 771.117 (CE Guidebook - Appendix A) that fits the entire project
- Per 23 CFR Part 452(l) identify the subsequent project phase identified on the STIP? ROW Construction
- Attach a copy of the STIP page to the CE documentation form.

SOCIAL & COMMUNITY IMPACTS DECISION MATRIX

The following decision matrix is an approach that uses a series of questions with Yes/No answers to provide direction on when additional analysis and documentation is appropriate for a proposed project. If additional documentation is necessary, consider all potential sources of impacts to protected populations in the analysis.

- 1) Are any protected populations present within the proposed limits of the project's impacts?
No – Document findings on CE documentation form and include demographic data; findings should be confirmed by using at least two information sources. No further analysis is required.
 Yes – Proceed to question 2.
- 2) Does the project require permanent right-of-way acquisition?
 No – Document findings on CE documentation form and include demographic data; findings should be confirmed by using at least two information sources. No further analysis is required.
Yes – Proceed to question 3.
- 3) Does the proposed project require any relocation of real and/or personal property?
No – Document findings on CE documentation form and include demographic data; findings should be confirmed by using at least two information sources. No further analysis is required.
Yes – An EJ memo is likely required. If so, the local agency must describe the project impacts and analyze their severity. Proceed to question 4.
- 4) Does the permanent right of way acquisition require more than 10 percent of any parcel?
No – Document findings on CE documentation form and include demographic data; findings should be confirmed by using at least two information sources. No further analysis is required.
Yes – Proceed to question 5.
- 5) Does the proposed project require displacement of more than 10 residences or businesses?
No – An EJ memo is required. The local agency must describe and analyze the proposed project's potential impacts in the form of an EJ Memo.
Yes – This project will require a discipline report and public outreach to make an environmental justice determination.
